Los Angeles Party Arrives At Hilo Today

Los Angelites To See In Crater Fiery Lava Fountains

(Special Wireless to Bulletin)

(Special Wireless to Bulletin)

HILO, March 11.—The Ohio was met by the reception committee representing the Hilo Board of Trade, and arrangements were immediately made for excursions about Hilo.

The party will leave for Honolulu on Thursday morning at 10 o'clock. The volcano is continuously active.

Everything promises that the visitors will leave Hilo and Hawaii under most favorable conditions.

In the floor of the pit a large area is covered with a mass of glowing lava and fountains are playing at regular intervals.

The members of the reception committee were as follows: C. C. Kennedy, chairman; John T. Moir, John T. Baker, John Scott and several ladies.

FARRINGTON.

HILO, March 11.—Arrived safely. Two hundred and fifty aboard. Leave Thursday.

The above wireless message from Secretary Wiggins of the Los Angeles Chamber of Commerce was received by the Promotion Committee this afternoon. As the party had been expected to arrive at Honolulu Wednesday, and according to this message, will not be able to arrive before Friday, the plans for their entertainment will have to be altered.

It had been planned to have the excursionists see Honolulu from Rapid Transit cars, including a visit to the aquarium, and to have a reception with a band concert at the Hawaiian Hotel, all on Wednesday, while Thursday's program was to include a trip to the Paoli, a businessmen's luncheon at the Young Hotel, and a ladies' reception at Alahua. The program will therefore have to be changed considerably, so as to get the events mentioned crowded in, unless it be possible to get the Ohio here earlier than Friday.

Secretary Wood is sending a wireless message to Hilo advising that the Ohio leave Wednesday, immediately after the luncheon, but even if this course is pursued she will probably not be able to arrive before Thursday evening.

HILO, Hawaii March 11.—The steamer Ohio arrived here at 8:30 o'clock this morning. She experienced a fine weather and a pleasant voyage.

The members of the entire party are, with a few exceptions, going to see the volcano. About eighty of them will start this afternoon. The remainder will go in two separate parties, as there are not sufficient accommodations at the Volcano House for all at once.

The luncheon which the Hilo citizens are to give the visitors will probably take place on Wednesday. The time of departure of the Ohio for Honolulu has not been settled upon yet.

The weather here is splendid and the volcano is quite active. The fire is less than 350 feet from the rim of the pit.

MAY TAKE SUGAR

The Ohio, now in Hilo with the Chamber of Commerce excursion from Los Angeles, may take a load of sugar to the coast when she returns. Nothing definite has been settled but efforts are being made to see whether she will be able to carry sugar. When asked what was being done in this connection, E. E. Paxton of Alexander & Baldwin made the following statement:

"There has been nothing done yet but we hope to be able to make satisfactory arrangements. I do not know how much sugar the Ohio can carry and at present am in the dark as to what may be done."

Roy Dwyer, 5 years old, son of Dr. William Dwyer, of Niagara Falls, N. Y., who has been unable since birth to talk, was frightened into the proper use of his tongue at the Wayne Hotel recently. The boy touched his finger on the bulb of an electric light and was scorched. The boy thereupon exclaimed, "Papa, I burned my finger on the light."

Joe Duffy, a Brooklyn fighter, has issued a challenge to meet any fighter in the world at 122 pounds. Duffy has not kept himself in good condition. For the past two weeks he has been training hard and expects to be in fighting shape within a month.

It's Not The Price

you pay for your Spring Suit that is of so much importance to you. The main trouble is getting one that pleases you, one that you know is absolutely right as to style and fit. These troubles disappear the moment you put on one of our suits. You don't have to have someone tell you it is becoming and that it fits you perfectly—you know it. No matter what price a man pays for a suit he is perfectly satisfied if he gets his money's worth.

RECOMMEND TO KILL STANDARD OIL BILL

Senate Roasts Officials
For Not Enforcing
Law.

SIXTEENTH DAY.

Forenoon Session.

Cochran introduced a petition from Molokai asking for an appropriation of \$300 for repairs to the derrick and landing at Polekunu.

Dowsett reported for the Ways and Means Committee on Senate Bill 29, authorizing the erection of private warehouses for the storage of oil and other liquid explosives, as follows:

Standard Oil Bill

Your committee on Ways and Means, to which was referred Senate Bill No. 29, entitled "An Act to authorize any person, firm or corporation to erect and other liquid explosives in Hilo, their, or its own warehouse in Honolulu," begs to report as follows:

The object of the bill is clearly set forth in its title, and authorizes any person, firm or corporation to erect private warehouses for the storage of kerosene and other liquid explosives, outside of the fire limits of Honolulu, subject to certain conditions of construction and inspection.

Your committee has given this bill its most earnest consideration and has invited an expression of public opinion, both oral and written, upon the merits of the bill, but must admit having thus obtained little or no material to assist the members of this committee in arriving at their verdict.

PRESENT LAW BROKEN.

Your committee is satisfied that the provisions of the present laws governing the storage and sale of kerosene and other liquid explosives have not been and are not now being complied with, and the attention of the proper authorities is called to this glaring evasion of the statutes, admittedly dangerous to life and property in this Territory. The purposes of the present laws for the storage of kerosene and other liquid explosives under Government supervision are in the interest of the public welfare, and in the opinion of your committee this should have first consideration.

The law now reads, however, that all kerosene oil and other liquid explosives must be stored in Government storerooms, and although a fee for such storage is now and has always been charged to the owner of the oil by the Government, your committee finds no statute authorizing such charge to be made.

Assuming such charge to be legal, and if not legal it should be made so in the opinion of your committee, proper storage facilities should also be afforded the importer of kerosene or liquid explosives, which is not now the case, and serious complaints have been made to your committee as regards the handling and custody of kerosene now stored in Government storerooms, not to speak of the poor and dangerous construction of the storerooms themselves.

WANT BILL KILLED.

The revenue to the Territory from the storage of kerosene and other liquid explosives has been such that it is the opinion of your committee that if it is to remain with the Territory, proper and suitable fireproof storerooms should be erected on Government land, and an appropriation for their erection should be made by the present Legislature. If, on the other hand it may be found expedient to adopt the recommendation of the Superintendent of Public Works in his report to the Governor, to turn over the testing and storage of kerosene oil and other liquid explosives to the counties, as being a matter of local concern, the same to be revenue producing, proper storage facilities as suggested should be then furnished by the Counties.

Other than an amendment to the present laws for the purpose of fixing and authorizing a statutory charge by the Government for the testing and storage of kerosene oil and other liquid explosives in Government storerooms, and that an appropriation be made for the construction of proper and suitable fireproof storerooms on Government land, your committee feels that the best interests of the public will be served by allowing the present laws to

FALSE CABLEGRAM WORRIES JAPANESE.

Said Laborers Might Be
Landed In San
Francisco

The local Japanese became greatly exercised yesterday and this morning over a report which was spread that there was no hindrance to their going to San Francisco. The rumor was caused by a cable message received by one of the local hotel keepers which stated that it was all right for Japanese laborers to come aboard and that they would not be stopped when they tried to enter the port of San Francisco.

This morning before the office of Irwin & Co. opened for business a large number of Japanese were waiting to book passage on the Alameda, due to sail a week from Wednesday. Some of them could speak no English but insisted in Japanese that they be booked whether the steamship company wished to or not.

Irwin & Co. in pursuance of the course laid out to them by the officials of the Oceanic Steamship Co., refused to book any of the applicants. Not satisfied by the refusal some of the Japanese would not go away and a number hung around on Fort street in front of Irwin & Co.'s office till nearly 10 o'clock.

One of the Japanese, who could talk very good English, said: "A Japanese hotel keeper received a message in response to one which he sent which has caused this crowd waiting here to secure passage. He asked for information in regard to the application which the immigration officers were making of the law and on Saturday night received a reply which stated that Japanese laborers would have no trouble in landing and for them to come ahead."

"We thought of course that there had been some new development which had come up and that we would now be sold tickets but now we find that the steamship companies had heard of nothing of the kind and will not give passage. Some mistake has been made. I do not know where."

"We Japanese in Hawaii consider that we are being very badly treated. Take my case for instance. I have been here for four years and have worked hard and saved money to start in a little business of my own on the Coast but I am still a laborer according to the immigration officials and cannot get a ticket to go to San Francisco. Of course we have appealed to our home government but what will be done we do not know."

ALAMEDA 24 HOURS LATE

The steamer Alameda will not reach here before next Saturday, according to advices received here by Irwin & Co., the Oceanic Steamship Co.'s local agents. The Alameda was a day late in reaching the Coast and it was impossible to get her freight on board in time to sail Saturday morning, when she left at 11 o'clock, 24 hours late. The time will be made up on this end and she will sail for the Coast on her regular time the following Wednesday morning.

AGUATE ENTERTAINMENT

Aguate entertainment for Los Angeles visitors at Hotel Bath, Thursday eve., March 14th, 8:30 p. m. Visitors free. Admission others, 25c including reserved seat.

MAIL FROM COAST

The American-Hawaiian steamer Nevada, Capt. Greene, should be off port early tomorrow morning and should have mail on board from San Francisco, as she sailed several days later than the China, the last boat to arrive bringing mail. She comes here direct from San Francisco.

HOUSE HOLDS 40 MINUTE SESSION

Concludes Its Work In
Record-Breaking
Time

SIXTEENTH DAY.

Forenoon Session.

The session of the House lasted only forty minutes this morning, breaking the record for brevity. The Speaker's table was cleared of business in a rush, and none of the members seemed to have anything on his mind that he wanted to talk about. Only one bill was introduced, and one bill passed third reading, that exempting tobacco growers from having to pay the annual license fee for the sale of tobacco. Two bills passed second reading.

There was no oratory. Even the two or three irrepressible members who talk on any and all occasions, remained in their seats and showed no signs of having anything to say. The Health and Police Committee, which last week visited the Kaplanai Girls' Home and the Kailahi receiving station, made a report highly commendatory of President Pinkham and what he has done to improve conditions, particularly at the latter place.

PRAISE FOR PINKHAM.

The Health and Police Committee reported that in accordance with Corcoran's resolution its members, together with a large majority of the members of the House, had visited the Kaplanai Girls' Home for non-leprosy children of leprosy parents.

With reference to the condition of the buildings there, the committee found them as clean and sanitary as conditions and circumstances would permit, but for lack of sufficient appropriation, the buildings are roughly built, unsightly in appearance and constructed with little or no provision for the comfort of the inmates. The chapel is also in a very dilapidated and unsafe condition, but the committee is informed by Mr. Pinkham that provision has already been made for the erection of new buildings and also of a new chapel in the item of \$11,000, under Board of Health appropriation. The committee recommends that this item be inserted in the Appropriation Bill.

In the treatment that is being accorded the children of the Home, the committee found every evidence of kind and considerate treatment and more particularly pleased to note the general happy and contented appearance of the inmates.

The committee also visited the Kailahi Receiving Station, which it found had been transformed from a rough and rude collection of shacks into an array of neat and handsome cottages, the walks curbed and laid out and the grounds prepared for graded lawns and flower beds. Comfortable quarters have been provided for those who wish to visit the inmates, and a glass partition runs the entire length of the room, separating visitors from suspects, thus preventing all likelihood of contamination, all calculated to alleviate the intense mental agony which must of necessity be experienced by those who are first brought face to face with their final doom.

The committee states that it would like to add a word of commendation of the able and efficient manner in which President Pinkham has effected

SOFIA, Bulgaria, March 11.—Prime Minister Petkoff has been assassinated.

OFFICER WOUNDED BY BOMB

VALBA, Crimea, March 11.—Colonel Dunbabin, the commandant of the garrison in this city, was wounded this morning by a bomb thrown at him while he was driving through the city in his carriage. The thrower of the bomb immediately committed suicide.

GOVERNOR CARTER SIGNS TWO MORE BILLS

Governor Carter this morning signed two more bills, making six new acts which have been placed on the statute book of the Territory since the Legislature convened.

The acts signed this morning were the one to encourage diversified industries, exempting from taxation all property used in the production of wine; and the act relating to the publication of election proclamations.

Rebuttal Testimony Offered

(Associated Press Special Cable)
NEW YORK, N. Y., March 11.—The rebuttal testimony in the Thaw trial was commenced this morning.

OFFICER WOUNDED BY BOMB

VALBA, Crimea, March 11.—Colonel Dunbabin, the commandant of the garrison in this city, was wounded this morning by a bomb thrown at him while he was driving through the city in his carriage. The thrower of the bomb immediately committed suicide.

22 Men Drowned

REDDING, Cal., March 11.—Twenty-two Greek laborers were drowned through the capsizing of a boat on the Sacramento river here today.

CREW DISCHARGED

(Associated Press Special Cable)
YOKOHAMA, Japan, March 11.—The crew of the Great Northern steamship Dakota has been paid off and discharged.

HOLDUP FOILED BY THICK SKULL

One of the boldest daylight robberies which has been attempted in Honolulu for years was foiled this morning through the thickness of the skull of the Japanese bartender in a saloon belonging to K. Odo and located at the corner of Nuuanu street and Berea street. Two white men entered the saloon this morning and assaulted the bartender with clubs, striking him several times. The bartender still kept on fighting and calling for help and the two would-be-robbers ran away and were out of sight before the police arrived on the scene. The robbers failed to get any booty whatever.
